GitHub: github.com/Jackribbit52 | Portfolio: jackribbit52.github.io

Computer Science graduate (4.0 GPA, Summa Cum Laude) with full-stack development experience across the PERN stack, Python/SQL data tooling, and system automation. Seeking a full-stack or systems-oriented software engineering role.

EDUCATION

The University of Texas Rio Grande Valley

May 2026

Bachelor of Science in Computer Science, **GPA 4.0, Summa Cum Laude, President's and Dean's List**

TECHNICAL PROJECTS

VolunteerConnect — Full-Stack Developer PERN Stack (PostgreSQL, Express.js, React, Node.js)

- **Built role-based access control (RBAC)** for event creation/registration and designed a relational PostgreSQL schema with RESTful APIs to handle CRUD operations while enforcing capacity limits and preventing overselling.
- **Implemented JWT/bcrypt authentication** with a time-sensitive encrypted-token password recovery flow, and a React dashboard with custom time-tracking logic to automate volunteer hour verification.

Academic Advisor Web App — Software Engineering (Team Lead, 4-person Agile team)

- **Took over project leadership mid-development**, using Agile/Scrum sprint planning (Trello) and Git-based version control (GitHub) to hit deadlines, delivering class schedule, transcript, and degree-roadmap views; earned an 'A'.

2D/3D Game Development — Unity, C#, Pygame

- **Built a 3D dungeon crawler and a Galaga remake**, implementing physics, animation, and gameplay systems, with GitHub-managed asset/version control across both projects.

SKILLS

Core Stack: Python, JavaScript, SQL, C/C++/C#, HTML/CSS, Node.js, Express, PostgreSQL, React (PERN), Pandas, Streamlit

Tools: Git/GitHub/GitLab, VS Code, Visual Studio, Agile/Scrum, Jira, Unity, Linux/Unix

Also familiar with: IT support/system diagnostics, PyInstaller, NSSM, Windows Task Scheduler, Microsoft Office/SharePoint. Bilingual (English/Spanish).

EXPERIENCE

IT Intern

Magic Valley Electric Co-op

June 2026 – Aug 2026

- **Built database-driven desktop/web tools (Nexus, Emergency DB)** with Python, Streamlit, Pandas, Node.js, and Express; wrote Python/SQL scripts to audit and reconcile inventory data across PostgreSQL, Access, and Excel.
- **Automated build/deploy pipelines** with GitLab, PyInstaller, NSSM, and Task Scheduler, troubleshooting CI/CD workflows.

Customer Service Associate / CDL Driver

The University of Texas Rio Grande Valley

Aug 2022 – May 2026

- Provided end-user technical support (hardware, software, mobile, VPN) for departmental systems; trained staff on tools and workflows, reducing recurring issues.

Additional: Customer Service Representative, New York State DMV (Dec 2020 – Apr 2022) — Tier 1 support for 50+ clients/day, 92% quality rating.

HONORS AND AWARDS

- Most Outstanding Intern Award, UTRGV Student Government Association (Fall 2022); Nominated for Student Employee of the Year (Spring 2025)
- Elected Brownsville Senator at Large & Sergeant at Arms, Student Government Association (Spring 2023)
- President's and Dean's List every semester since Fall 2022
